For Motor Companies; E. G. Perry Completes a New
Home on McKinley Avenue, His Partner Is to
Have One Like It; Spence to Build on Texas.

Work will begin next week on the new home of the Tri-State Motor company, at the corner of Chihuahua and Leon streets. The structure will be a two-story brick and will cost \$25,000. The ground floor will be used as a storeroom, the basement as a service station and the second story will contain apartments. An elevator will be installed to transport material from the above rooms to the basement. The Perry-Kirkpatrick Realty company will build the structure.

The outside brickwork on the new building, which will house the Lone Star Motor company, has been completed. The building will cost \$40,000 and is located at the corner of Chihuahua and San Antonio streets. It will be two stories in height, with a service station in the basement. The upper floor will be devoted to living quarters and the lower to a saleroom.

E. G. Perry's Home Done.

The new home of E. G. Perry in the 4400 block, on McKinley avenue, will

be completed next week. There are 10 rooms in the dwelling, which was erected at a cost of \$11,500. It is located on a plot of ground containing five lots and is built of golden tapestry brick. All the modern building fixtures are incorporated in it. The bathroom, especially, is a feature. It is finished in white tile and contains a built-in bath tub. Mr. Perry has planted 21 trees around his home.

J. W. Kirkpatrick, of the Perry-Kirkpatrick Realty company, will soon build a bungalow along similar lines in the 3200 block on McKinley avenue.

Work will begin next week on three five room bungalows in the 3000 block on Montana street. The total cost will be \$12,500. They will be constructed by the Perry-Kirkpatrick Realty company.

New Texas Street Building.

Construction has begun on a one story brick business building in the 200 block on Texas street for J. Spence. Jolly & Morris will do the work, which will cost about \$4000.

The roof is being placed on the new sixth apartment at the corner of Overland and Virginia streets. This is one of the largest apartment houses in the city, containing, as it does, 27 flats. It will be completed in two weeks.

Mrs. Blinzer Hockett has ordered construction to begin on her new, six room bungalow in the 2100 block on Tulare street. It will cost \$4800 and will be built by Jolly & Morris.

The Perry-Kirkpatrick Realty company has begun construction of a two story residence in the 900 block on West Missouri street. It will cost \$1000.

Ben L. Farrer is building three bungalows at the corner of Byron and McKinley streets, in the Morningstar Heights addition. The total cost will be approximately \$10,750. The work is being done by the Perry-Kirkpatrick Realty company.

A new apartment house is being built at the corner of Kansas and Nevada streets by the Perry-Kirkpatrick Realty company. The new structure will contain eight four room apartments with sleeping porches attached. It will be two stories in height.

A. T. Licata has purchased four lots in block 24, Grandview addition, and will build a building bungalows upon them. The sale was made through the firm of Creel & Phillips.

T. A. Darling, manager of the Western Union Telegraph office here, has purchased the six room bungalow at 3406 Bliss street from Mrs. Alice M. Creel for \$4250. The sale was made by Creel & Phillips.

The Knights of Columbus building on Myrtle avenue will soon be remodeled. The new structure will be built and the arrangement of rooms, halls and balconies changed to give more space for the present lodge room.

G. E. Graham has purchased a bungalow in the 3000 block on Bliss street from the Phoenix-El Paso Building company for \$12,000. The sale was made by Creel & Phillips.

David M. Badler has bought of J. W. Phillips the five room dwelling at 3011 Bliss street for \$1750. He will use the house as a home.

J. C. Walker has purchased eight lots in Geronimo Hill and will build houses upon them. Two lots are situated on Cambridge, two on Trowbridge and four on Chester streets. The total price of the property was \$1200 and the deal was made through Creel & Phillips.

Mrs. G. B. Harris has bought two lots in the 2400 block on Bliss street from Mrs. A. M. Creel for \$750.

\$360,000 BRICK PLANT GOING UP; A MONTHLY PAYROLL OF \$25,000

By July 1, the first brick plant ever built and owned by a labor union will be in operation in El Paso. When the factory opens for operation, it will have a capacity of 140,000 brick or tile a day and the monthly payroll will amount to \$25,000. Between 250 and 260 men will be employed and less than 20 of this number will be unskilled laborers. Four hundred tons of finished products will be turned out every day.

The new plant covers six and one-half acres and is located in the Cotton addition just south of the El Paso foundry. Fifty workmen are employed in the construction and work is being pushed in order to make the opening on July 1. The money used for buying

the ground and erecting the plant to cost \$360,000 and was drawn from the general treasury of the Bricklayers International union. The plant will be operated by the union. It is estimated that similar plants will be built in other portions of the country from the surplus funds of the labor organization. Every labor body in the United States is watching with interest the outcome of this experiment on the part of the bricklayers.

The union owns 250 acres of shale deposits five miles west of El Paso and will draw its raw material from this field. Seven hundred feet of continuous kiln will be fired when the plant is ready to start production.

Campaign Started by Episcopal Church Already Has Raised \$95,000.

forever to settle the Jewish question so it will stay settled. The claim is made that the rabbis have been wronged, and Jewish women and girls wronged. German Jews want a congress that their cause may be heard.

The congress to raise recommendations to the peace conferences as soon as war ends.

The American Jewish committee, with Louis M. Marshall at its head, stoutly oppose such a congress. This committee has raised \$70,000 for distressed Jews in Russia and was organized to do the very thing proposed by the congress. Its members are recognized to be the most influential Jews in America today.

Jews say that methods proposed by the American Jewish committee do not deserve public opinion sufficiently and that a great Jewish congress will be the best way to inform people of outrages done to Jews and what Jews believe to be their rights. The German element are working hard for the congress.

PLAN TO RAISE \$400,000

EXTRA FOR MISSION WORK

Four hundred thousand dollars extra for missions at home and abroad before the first of June is the aim of the Episcopal church here. This campaign has already resulted in over \$25,000 in gifts and pledges. These range in amounts from 2 cents up to \$5,000, and come from nearly every section of America.

This fund is known as the "100,000 Emergency fund." The Episcopal board of missions is calling the members of that church to prayer, and asking that each one give at least one day's income, or some equivalent self-denial offering. Through the agency of the mission board, the various provinces, dioceses and parishes of the church, an attempt is being made to bring this appeal to every member, asking for an offering in addition to their usual gifts for missions.

The need for this fund arises partly from the straits due to the European war, and partly from the success of the church's mission work—especially in China and Japan. Opportunities in these lands have first been created and then seized by the missionaries, and the board of missions has had to increase its appropriations for the work; the same is true in great degree in the home land.

As a result, the board has, in the past few years, accumulated a deficit of \$250,000. The other \$150,000 is what the board thinks will be necessary to finish the fiscal year without a further deficit.

The board is bold enough to try the faith of the church by launching this appeal in these unsettled times, because it believes that the European situation creates one of the decisive hours in Christian missions. Further stimulus comes from the church of England which, in spite of the exactions of war, is giving greater sums for missions than ever before.

The "emergency committee" which has the direction of this campaign is composed of men prominent in church, business and professional life—bishop Lines, chairman; bishops Greer, Rhinelander and Thomas; Rev. Drs. Seligwick, Stiles, Alsop and Miel; Messrs. George Wharton Pepper, Burton Mansfield, William E. Cochran, George Gordon King and John W. Wood.

RETAIL TRADE TO ORGANIZE

Merchants to Meet Tuesday at 3 O'clock to Organize For Mutual Interests.

Retail merchants in all lines but the grocery trade will organize for their mutual benefit Tuesday afternoon at 3 o'clock in the Progress club, over the City National bank.

This meeting is the result of the efforts of the leading retail merchants to form an organization for the betterment of the retail trade. The dry goods, shoe, jewelry, furniture, clothing and other branches of the retail business have been invited to send representatives to the meeting. The grocery stores are now organized into an association and will not participate in the new movement.

Matters of mutual interest will be discussed at this meeting, including the early closing movement for the summer, the return of goods taken out on approval, the bringing of more outside trade to the city and the closer cooperation of the retail trade.

These new lamps will be set on each side of San Francisco street between The Herald building and the union station. It is expected to have the lamps burning by June 1.

San Francisco Street Lamps Are Being Put Up

Poles for the San Francisco lighting system are now set and the lamps will be hung and these connected with the direct current machine at the power plant.

The lamps will be swung on ornamental arms suspended midway on the metal poles. The design is similar to the two big arcs in front of the Alhambra theater on El Paso street. The upper part of the metal poles will be used to support the feed wire for the depot car line.

These new lamps will be set on each side of San Francisco street between The Herald building and the union station. It is expected to have the lamps burning by June 1.

Old Adobe Building To Have New Mission Front

Longwell's garage and livery barn will have a new mission front. The building is one of the few remaining adobe buildings in the business district. On the San Francisco street front gables in mission design are being built and the entire front covered with mud and preliminary to coating the front with plaster.

The improvement will be completed within a week and will make the Longwell building one of the most attractive on San Francisco street. Mr. Longwell is also contemplating other changes in the stable and garage.

This old building is probably the only one in the downtown district which has the old adobe plan of roof construction. In the office and entrance to the barn may be seen the cottonwood poles which support the roof. These poles are laid in a design and Mr. Longwell has had those forming the ceiling of the office finished in oil.

A dollar saved by buying goods produced elsewhere is a dollar thrown at your neighbor's birds.

Mishap—Misuse

The Only Clouds That Ever Dim the Glory of Fortified Tires

To Our Coming Friends

When you join the army of Goodyear tire users, do not expect the impossible. No tire ever built is exempt from mishap or misuse. Goodyears sometimes meet ill-luck, like others.

But they average best. That is amply proved, and there is ample reason for it. Some give wondrous mileage, some meet accidents. But on the whole they mean much lower tire bills, much less trouble.

Five Major Reasons

The Goodyear Fortified Tire has five exclusive features. One combats rim-cuts, one blowouts, one loose treads. And all in the best ways known. One is the ideal anti-skid—our All-Weather tread—very thick, very tough, with sharp, resistless grips. And one gives security.

Note that all these features belong to Goodyear alone. They are extras on which we spend millions of dollars. And those are the main reasons why Goodyears rule.

Still Greater Value

On February 1st we made another big price reduction—our third in two years, totaling 45 per cent. Never has any tire offered such value as Goodyears give today. That results from our mammoth output.

We count all motorists among our coming friends. Tires which excel in so many ways appeal to all tire users. Try them and judge them fairly. Any dealer will supply you.

How She Ended Ten Years of Skin-Torture

Oct. 25, 1914.—"I had eczema on my face for ten years. Little red pimples formed in a small spot on my chin and then spread all over my face. They itched and burned me awfully. It was certainly embarrassing to me, and I would not go amongst people. I tried almost every remedy and treatment that could be used for this trouble, but nothing did me any good. I used Resinol Ointment and Resinol Soap, and was relieved in a day or two. In one month I was cured. This was six months ago and the trouble has never returned." (Signed) Mrs. C. G. Roberts, Weatherford, Okla. Every druggist sells Resinol Ointment and Resinol Soap and doctors have prescribed this Resinol treatment for twenty years.—Advertisement.
